

Maintenance Kit

Detailed Description

This kit contains everything needed for the piston lubrication, quick O-ring cleaning and easy pool vacuuming. The kit will help keep your Safety Vacuum Release valve functioning properly.

The following is included with the kit (VAC55)

- VAC50 – Silicone lube (2oz.) - Dropper bottle for dispensing silicone into the small perforations of the cap.
- Piston O-ring (qty 2)
- Cleaning swabs (25 pack) – Makes it easier to clean the head to reach areas and grooves.
- Teflon tape – Added level of threading seal.
- Red Plugs – Blocks air induction during vacuuming the pool floor.
